true stories

if it's true  
you can prove it

**katja** : I was sick of hypocrisy.  
I wanted God's power in my life,  
not powerless religion.

I was born and raised in Germany. When I was 17 I started travelling around Australia. During my travels I met some people who told me about a personal experience with the Creator. I spoke to several people and they all spoke of miracles happening in their lives, after they had received the Holy Spirit. I had been brought up in a Protestant church and I was sick of hypocrisy, so when I was told I could pray for the Holy Spirit myself, I took the opportunity. I wanted God's power in my life, not powerless religion. During prayer, I started speaking in tongues, a wonderful language I had never learnt before. Straightaway everything made sense and I started taking the Bible seriously. The next day I was baptised by full immersion. Everything was brand new. I was excited and happy and had a boldness to tell others about God. God has healed me many times and given me a real peace that I'm truly thankful for.

**peter** : Although I was happy 'cruising'  
through life, there was something missing.

I was looking for a love and peace in my life. Although I was happy 'cruising' through life, there was something missing. I had a religious upbringing, but when I left home, I just did my own thing in life. I always thought there had to be something more. I was never suicidal, but needed to find comfort in external things. This was only temporary comfort - it never lasted. In 1990, my brother told me about his experience with God, and began inviting me to events at his Church. I saw a peace and love in the people I met, and was shown the answers to all my questions from the Bible. Even though I was sceptical, I said 'If this is true, then I'm going to put it to the test'. Over the next week I examined my life and where I was headed. I went to a meeting and was baptised by full immersion, and received the Holy Spirit, speaking in tongues. From that point on, I had the love and peace I was searching for. My life now has direction through the Holy Spirit experience. It was internally that I found true comfort.

**mel** : When I was 9 years old, I  
began to question if there was proof of God.

I was brought up to believe in God, but when I was 9 years old I began to question if there was proof of God. On my knees at home I asked God for proof and immediately started to speak in a language I had never learnt before. I had received God's Holy Spirit. I was then baptized by full immersion as the Bible commanded. God had proved himself to a 9 year old! I was swimming with friends one day, and was stung by a box jellyfish. During the 10 minute drive to hospital, I was prayed for. Upon arriving at the hospital I realised that all the pain had gone and the swelling had subsided. The doctor who examined me was amazed, saying that the scar looked a couple of weeks old. Recently I put my hand on a hotplate and severely burnt it. Doctors told me that due to the 3rd degree burns, I would need skin grafts and would never have full mobility of my hand. After much prayer my hand was fully healed, without any trace of scarring. My life is full of miracles, and God continues to be an everyday part of my life.

**kevin** : I had been clinically dead  
for 20 minutes.

In 1981 I was told about the things of God. I went to a Sunday meeting where everything said, seemed like God was talking directly to me. That day I was baptised. One cold, wet night looking into the sky I said, 'God I want to talk to you through this Holy Spirit', when my tongue changed. I had received God's Holy Spirit. It was the most beautiful experience I have ever had in my life. I liken it to being in a bubble, a cocoon, totally protected. The 7th of November 1999 is a day I will never forget. Half an hour before an emergency triple bypass operation, due to five blocked arteries, I suffered a massive heart attack, said good-bye to my wife and died. The surgeon manually massaged my heart for 20 minutes before placing me on life support. My wife was told, as I had been clinically dead for 20 minutes, they would not know how much brain damage had occurred. My wife not accepting this, prayed for my recovery. The Lord heard her prayers - I was totally restored. Subsequent ECG tests show that I have never had a heart attack. In fact no heart damage at all.
